MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED During the month of August, the Department of Human Services received 4,774 applications for Aid to Families with Dependent Children, an increase of 127 (2.7 percent) over the number received during July. In comparison with the number of applications received during August of the preceding year, there was an increase of 592 applications (14.2 percent).

APPLICATIONS DISPOSED OF Investigations were completed on 4,428 AFDC applications during August. This number was 54.2 percent of the total applications on hand. It compares with 53.4 percent of the total number on hand for which investigations were completed during the preceding year. Two thousand seven hundred and twenty-five (2,725) (61.5 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during August, in comparison with 2,408 applicants (62.0 percent of those investigated) approved the preceding month and 2,682 applicants (63.8 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 13.2 percent over the number approved in July and an increase of 1.6 percent over the number approved in August, 1981. The rate of approvals for the AFDC Program decreased from the preceding month by 0.5 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 2.3 percent.

ASSISTANCE PAYMENTS Money payments for AFDC during August amounted to $6,482,588.00. This was an increase of 1.0 percent over the amount of money payments for July, but a decrease of 12.4 percent from the money payments for August of the preceding year. Payments were made for 55,229 families with 99,300 children at an average grant of $117.38 per family and $65.28 per child. The average grant increased over July by $0.90 per family and $0.58 per child. In comparison with the same month of last year, the average grant showed an increase of $5.17 per family and an increase of $4.38 per child.

CASES CLOSED Two thousand three hundred and twenty-nine (2,329) AFDC cases were closed during August, a decrease of 5.9 percent from the July closures. In comparison with the same month of the preceding year, the closures showed a decrease of 18.3 percent. Nine hundred and forty-two (942) (40.4 percent) of the AFDC cases closed during August were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand three hundred and eighty-seven (1,387) (59.6 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of September, the Department of Human Services received 4,734 applications for Aid to Families with Dependent Children, a decrease of 40 (0.8 percent) from the number received during August. In comparison with the number of applications received during September of the preceding year, there was a decrease of 576 applications (10.8 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 4,642 AFDC applications during September. This number was 54.8 percent of the total applications on hand. It compares with 54.2 percent of the total number on hand for which investigations were completed during the preceding month and 62.4 percent for which investigations were completed during the same month of the preceding year. Two thousand eight hundred and ninety-nine (2,899) (62.5 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during September, in comparison with 2,725 applicants (61.5 percent of those investigated) approved the preceding month and 3,953 applicants (70.4 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 6.4 percent over the number approved in August, but a decrease of 26.7 percent from the number approved in September, 1981. The rate of approvals for the AFDC Program increased over the preceding month by 1.0 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 7.9 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during September amounted to $6,542,407. This was an increase of 0.9 percent over the amount of money payments for August, but a decrease of 12.1 percent from the money payments for September of the preceding year. Payments were made for 55,663 families with 99,961 children at an average grant of $117.54 per family and $65.45 per child. The average grant increased over August by $0.16 per family and $0.17 per child. In comparison with the same month of last year, the average grant showed an increase of $4.90 per family and $4.30 per child.

CASES CLOSED

Two thousand one hundred and seventy-four (2,174) AFDC cases were closed during September, a decrease of 6.7 percent from the August closures. In comparison with the same month of the preceding year, the closures showed a decrease of 14.8 percent. Eight hundred and fifty (850) (39.1 percent) of the AFDC cases closed during September were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand three hundred and twenty-four (1,324) (60.9 percent oof the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of October, the Department of Human Services received 4,708 applications for Aid to Families with Dependent Children, a decrease of 26 (0.5 percent) from the number received during September. In comparison with the number of applications received during October of the preceding year, there was a decrease of 868 applications (15.6 percent).

APPLICATIONS DISPOSED OF

Investigations were completed of 4,855 AFDC applications during October. This number was 56.8 percent of the total applications on hand. It compares with 54.8 percent of the total number on hand for which investigations were completed during the preceding month and 62.6 percent for which investigations were completed during the same month of the preceding year. Three thousand and seventeen (3,017) (62.1 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during October, in comparison with 2,899 applicants (61.5 percent of those investigated) approved the preceding month and 3,827 applicants (68.2 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 4.1 percent over the number approved in September, but a decrease of 21.2 percent from the number approved in October, 1981. The rate of approvals for the AFDC Program increased over the preceding month by 0.6 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 6.1 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during October amounted to $6,630,843. This was an increase of 1.4 percent over the amount of money payments for September and an increase of 5.5 percent over the money payments for October of the preceding year. Payments were made for 56,124 families with 100,654 children at an average grant of $118.15 per family and $65.88 per child. The average grant increased over September by $0.61 per family and $0.43 per child. In comparison with the same month of last year, the average grant showed an increase of $3.91 per family and an increase of $3.08 per child.

CASES CLOSED

Two thousand two hundred and eighty-three (2,283) AFDC cases were closed during October, an increase of 5.0 percent over the September closures. In comparison with the same month of the preceding year, the closures showed a decrease of 81.6 percent. Nine hundred and nineteen (919) (40.3 percent) of the AFDC cases closed during October were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand three hundred and sixty-four (1,364) (59.7 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of November, the Department of Human Services received 4,502 applications for Aid to Families with Dependent Children, a decrease of 206 (4.4 percent) from the number received during October. In comparison with the number of applications received during November of the preceding year, there was an increase of 218 applications (5.1 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 4,623 AFDC applications during November. This number was 56.5 percent of the total applications on hand. It compares with 56.8 percent of the total number on hand for which investigations were completed during the preceding month of the preceding year. Two thousand nine hundred and seven (2,907) (62.9 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during November, in comparison with 3,017 applicants (62.1 percent of those investigated) approved the preceding month and 2,875 applicants (63.4 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 3.6 percent from the number approved in October, but an increase of 1.1 percent over the number approved in November, 1981. The rate of approvals for the AFDC Program increased over the preceding month by 0.8 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 0.5 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during November amounted to $6,684,148. This was an increase of 0.8 percent over the amount of money payments for October and an increase of 8.2 percent over the money payments for November of the preceding year. Payments were made for 56,615 families with 101,331 children at an average grant of $118.06 per family and $65.96 per child. The average grant decreased from October by $0.09 per family but an increase of $0.08 per child. In comparison with the same month of last year, the average grant showed an increase of $6.13 per family and an increase of $4.31 per child.

CASES CLOSED

Two thousand one hundred and seventy-eight (2,178) AFDC cases were closed during November, a decrease of 6.4 percent from the October closures. In comparison with the same month of the preceding year, the closures showed an increase of 24.4 percent. Eight hundred forty-two (842) (39.4 percent) of the AFDC cases closed during November were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand two hundred and ninety-six (1,296) (60.6 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED During the month of December, the Department of Human Services received 3,988 applications for Aid to Families with Dependent Children, a decrease of 514 (11.4 percent) from the number received during November. In comparison with the number of applications received during December of the preceding year, there was an increase of 355 applications (9.8 percent).

APPLICATIONS DISPOSED OF Investigations were completed on 4,509 AFDC applications during December. This number was 59.7 percent of the total applications on hand. It compares with 56.5 percent of the total number on hand for which investigations were completed during the preceding month and 60.9 percent for which investigations were completed during the same month of the preceding year. Two thousand nine hundred and seventy-seven (66.0 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during December, in comparison with 2,907 applicants (62.9 percent of those investigated) approved the preceding month and 2,671 applicants (65.2 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 2.4 percent over the number approved in November, an increase of 11.5 percent over the number approved in December, 1981. The rate of approvals for the AFDC Program increased over the preceding month by 3.1 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 0.8 percent.

ASSISTANCE PAYMENTS Money payments for AFDC during December amounted to $6,771,217. This was an increase of 1.3 percent over the amount of money payments for November, an increase of 8.4 percent over the money payments for December of the preceding year. Payments were made for 57,432 families with 102,612 children at an average grant of $117.90 per family and $65.99 per child. The average grant decreased from November by $0.16 per family but increased $0.03 per child. In comparison with the same month of last year, the average grant showed an increase of $5.79 per family and $4.15 per child.

CASES CLOSED One thousand nine hundred and forty-eight (1,948) AFDC cases were closed during December, a decrease of 8.9 percent from the November closures. In comparison with the same month of the preceding year, the closures showed a decrease of 0.9 percent. Seven hundred forty-two (742) (38.1 percent) of the AFDC cases closed during December were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand two hundred and six (1,206) (61.9 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of January, the Department of Human Services received 4,424 applications for Aid to Families with Dependent Children, an increase of 436 (10.9 percent) over the number received during December. In comparison with the number of applications received during January of the preceding year, there was an increase of 363 applications (8.9 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 4,408 AFDC applications during January. This number was 59.0 percent of the total applications on hand. It compares with 59.7 percent of the total number on hand for which investigations were completed during the preceding month and 60.1 percent for which investigations were completed during the same month of the preceding year. Two thousand eight hundred and fifty-two (64.7 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during January, in comparison with 2,977 applicatns (66.0 percent of those investigated) approved the preceding month and 2,521 applicants (62.6 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 4.2 percent from the number approved in December, but an increase of 13.1 percent over the number approved in January, 1982. The rate of approvals for the AFDC Program decreased from the preceding month by 1.3 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 2.1 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during January amounted to $6,648,990. This was a decrease of 1.8 percent from the amount of money payments for December, but an increase of 5.5 percent over the money payments for January of the preceding year. Payments were made for 58,164 families with 103,798 children at an average grant of $117.75 per family and $65.98 per child. The average grant decreased from December by $0.15 per family and $0.01 per child. In comparison with the same month of last year, the average grant showed an increase of $5.67 per family and an increase of $4.04 per child.

CASES CLOSED

One thousand eight hundred and sixty-five (1,865) AFDC cases were closed during January, a decrease of 4.3 percent from the December closures. In comparison with the same month of the preceding year, the closures showed a decrease of 26.0 percent. Six hundred and seventy-four (674) (36.1 percent) of the AFDC cases closed during January were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand one hundred and ninety-one (1,191) (63.9 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED During the month of February, the Department of Human Services received 3,856 applications for Aid to Families with Dependent Children, a decrease of 568 (12.8 percent) from the number received during January. In comparison with the number of applications received during February of the preceding year, there was a decrease of 163 applications (4.1 percent).

APPLICATIONS DISPOSED OF Investigations were completed on 3,557 AFDC applications during February. This number was 51.4 percent of the total applications on hand. It compares with 59 percent of the total number on hand for which investigations were completed during the preceding month and 55.7 percent for which investigations were completed during the same month of the preceding year. Two thousand one hundred and fifteen (2,115) (59.5 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during February, in comparison with 2,852 applicants (64.7 percent of those investigated) approved the preceding month and 2,297 applicants (61.7 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 25.8 percent from the number approved in January and a decrease of 7.9 percent from the number approved in February, 1982. The rate of approvals for the AFDC Program decreased from the preceding month by 5.2 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 2.2 percent.

ASSISTANCE PAYMENTS Money payments for AFDC during February amounted to $6,775,903. This was an increase of 1.9 percent over the amount of money payments for January and an increase of 8.3 percent over the money payments for February of the preceding year. Payments were made for 58,076 families with 103,565 children at an average grant of $116.67 per family and $65.43 per child. The average grant decreased from January by $1.08 per family and $0.55 per child. In comparison with the same month of last year, the average grant showed an increase of $4.77 per family and an increase of $3.51 per child.

CASES CLOSED Eighteen hundred (1,800) AFDC cases were closed during February, a decrease of 3.5 percent from the January closures. In comparison with the same month of the preceding year, the closures showed a decrease of 25.1 percent. Four hundred and twenty-four (424) (23.6 percent) of the AFDC cases closed during February were closed because of a change in economic circumstances, chiefly employment, increased earnings, or an increase of benefits or pension, making these cases no longer in need in accordance with the standards of the Department. One thousand three hundred and seventy-six (1,376) (76.4 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, recipient initiative, or no longer eligible child.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED During the month of March, the Department of Human Services received 4,570 applications for Aid to Families with Dependent Children, an increase of 714 (18.5 percent) over the number received during February. In comparison with the number of applications received during March of the preceding year, there was an increase of 408 applications (9.8 percent).

APPLICATIONS DISPOSED OF Investigations were completed on 4,969 AFDC applications during March. This number was 62.7 percent of the total applications on hand. It compares with 51.4 percent of the total number on hand for which investigations were completed during the preceding month and 63.3 percent for which investigations were completed during the same month of the preceding year. Three thousand two hundred and forty-five (3,245) (65.3 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during March, in comparison with 2,115 applicants (59.5 percent of those investigated) approved the preceding month and 2,816 applicants (63.4 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 53.4 percent over the number approved in February, and an increase of 15.2 percent over the number approved in March, 1983. The rate of approvals for the AFDC Program increased over the preceding month by 5.8 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 1.9 percent.

ASSISTANCE PAYMENTS Money payments for AFDC during March amounted to $7,006,001.00. This was an increase of 3.4 percent over the amount of money payments for February, and an increase of 10.6 percent over the money payments for March of the preceding year. Payments were made for 59,065 families with 104,992 children at an average grant of $118.62 per family and $66.73 per child. The average grant decreased from February by $0.05 per family but increased $1.30 per child. In comparison with the same month of last year, the average grant showed an increase of $5.99 per family and an increase of $4.34 per child.

CASES CLOSED One thousand seven hundred and fifty-five (1,755) AFDC cases were closed during March, a decrease of 2.5 percent from the February closures. In comparison with the same month of the preceding year, the closures showed a decrease of 21.2 percent. One hundred and fifty-four (154) (8.8 percent) of the AFDC cases closed during March were closed because of a change in economic circumstances, chiefly increased earnings, or support from person outside the home, making these cases no longer in need in accordance with the standards of the Department. One thousand six hundred and one (1,601) (91.2 percent of the total number closed) had had no change in economic circumstances, but were closed because of recipient initiative or gross income in excess of 150% of need standard.

It compares with 62.7 percent of the total number on hand for which investigations were completed during the preceding month and 59.7 percent for which investigations were completed during the same month of the preceding year. Two thousand five hundred and forty-nine (2,549) (64.4 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during April, in comparison with 3,245 applicants (65.3 percent of those investigated) approved the preceding month and 2,415 applicants (65.1 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 21.4 percent from the number approved in March, but an increase of 5.5 percent over the number approved in April, 1982. The rate of approvals for the AFDC Program decreased from the preceding month by 0.9 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 0.7 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during April amounted to $6,909,092.00. This was a decrease of 1.4 percent from the amount of money payments for March, but an increase of 11.1 percent over the money payments for April of the preceding year. Payments were made for 59,068 families with 104,826 children at an average grant of $116.97 per family and $65.91 per child. The average grant decreased from Marcy by $1.65 per family and $0.82 per child. In comparison with the same month of last year, the average grant showed an increase of $5.53 per family and an increase of $4.03 per child.

CASES CLOSED

Two thousand one hundred and sixty-six (2,166) AFDC cases were closed during April, an increase of 23.4 percent over the March closures. In comparison with the same month of the preceding year, the closures showed a decrease of 15.2 percent. One hundred thirty-two (132) (6.1 percent) of the AFDC cases closed during April were closed because of a change in economic circumstances, chiefly employment, increased earnings, or support from persons outside home, making these cases no longer in need in accordance with the standards of the Department. Two thousand and thirty-four (2,034) (93.9 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, recipient initiative, or gross income in excess of 150% of need standard.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of May, the Department of Human Services received 3,740 applications for Aid to Families with Dependent Children, a decrease of 12 (0.3 percent) from the number received during April. In comparison with the number of applications received during May of the preceding year, there was a decrease of 256 applications (6.4 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 3,824 AFDC applications during May. This number was 58.9 percent of the total applications on hand. It compares with 59.0 percent of the total number on hand for which investigations were completed during the preceding month and 58.5 percent for which investigations were completed during the same month of the preceding year. Two thousand four hundred and forty (2,440) (63.8 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during May, in comparison with 2,549 applicants (64.4 percent of those investigated) approved the preceding month and 2,411 applicants (63.4 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 4.3 percent from the number approved in April, but an increase of 1.2 percent over the number approved in May, 1982. The rate of approvals for the AFDC Program decreased from the preceding month by 0.6 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 0.4 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during May amounted to $6,889,600.00. This was a decrease of 0.3 percent from the amount of money payments for April, but an increase of 10.7 percent over the money payments for May of the preceding year. Payments were made for 59,038 families with 104,660 children at an average grant of $116.85 per family and $65.91 per child. The average grant decreased from April by $0.12 per family but the grant per child remained the same. In comparison with the same month of last year, the average grant showed an increase of $5.06 per family and an increase of $3.86 per child.

CASES CLOSED

Two thousand and thirty-four (2,034) AFDC cases were closed during May, a decrease of 6.1 percent from the April closures. In comparison with the same month of the preceding year, the closures showed a decrease of 7.8 percent. One hundred eighteen (118) (5.8) percent) of the AFDC cases closed during May were closed because of a change in economic circumstances, chiefly employment, increased earnings, or support from person outside the home, making these cases no longer in need in accordance with the standards of the Department. One thousand nine hundred and sixteen (1,916) (94.2 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, recipient initiative, or gross income in excess of 150% of need assistance.

MONTHLY REVIEW OF MEDICAL ASSISTANCE

APPLICATIONS RECEIVED During the month of May, 1983, the Department of Human Services received 3,186 applications for Medical Assistance. Of this number, 314 were Medically Needy Women and Children, 777 were Aged persons applying for Categorically Needy, 6 were applications for Blind Categorically Needy, 718 were for Disabled Categorically Needy, and 871 were Women and Children's applications as Categorically Needy.

APPLICATIONS DISPOSED OF Investigations were completed on 3,272 applications during the month. Seven hundred ninety-eight (798) applications processed were Medically Needy, 799 were Aged Categorically Needy, 4 were Blind Categorically Needy, 748 were Disabled Categorically Needy, and 923 were Women and Children's applications for Categorically Needy. Of the total number processed, 1,671 (or 51.1 percent) were determined eligible for Medical Assistance. There were 375 Medically Needy approvals, 519 Aged Categorically Needy approvals, 2 Blind Categorically Needy, 217 Disabled Categorically Needy, and 558 were Women and Children's applications approved as Categorically Needy. At the end of May, the workers in the Department had 2,935 applications which had not been disposed of and were pending to next month. The total pending was made up of 651 Medically Needy applications and for Categorically Needy, 916 were Aged, 2 Blind, 720 Disabled, and 646 Women and Children.

NURSING HOME CARE (SSI) ACTIVITY

CERTIFICATION REQUESTS During the month of May, workers in the local offices of the Department received 251 initial requests to determine income of SSI recipients in skilled or intermediate care facilities. These requests, when added to the 411 left pending at the end of April, made a total of 662 on hand during the month. Of these, 270 were completed during the month and 392 were pending at the end of May.

CERTIFICATION CASES At the end of April, there were 6,362 income certification cases continued to next month. These cases, added to the 270 new cases for May, made a total active case load of 6,632. Of these, 231 had their benefits terminated during the month because they were no longer eligible, leaving 6,401 cases still active at the end of May.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of June, the Department of Human Services received 4,024 applications for Aid to Families with Dependent Children, an increase of 284 (7.6 percent) over the number received during May. In comparison with the number of applications received during June of the preceding year, there was a decrease of 234 applications (5.5 percent).

It compares with 58.9 percent of the total number on hand for which investigations were completed during the preceding month and 55.5 percent for which investigations were completed during the same month of the preceding year. Two thousand four hundred and twenty-one (2,421) (65.2 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during June, in comparison with 2,440 applicants (63.8 percent of those investigated) approved the preceding month and 2,385 applicants (61.8 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 0.8 percent from the number approved in May, but an increase of 1.5 percent over the number approved in June, 1982. The rate of approvals for the AFDC Program increased over the preceding month by 1.4 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 3.4 percent.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of July, the Department of Human Services received 4,073 applications for Aid to Families with Dependent Children, an increase of 49 (1.2 percent) over of number received during June. In comparison with the number of applications received during July of the preceding year, there was a decrease of 109 applications (2.6 percent).

Investigations were completed on 4,007 AFDC applications during July. This number was 56.8 percent of the total applications on hand. It compares with 55.5 percent of the total number on hand for which investigations were completed during the preceding month and 53.4 percent for which investigations were completed during the same month of the preceding year. Two thousand six hundred and thirty-four (2,634) (65.7 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during July, in comparison with 2,421 applicants (65.2 percent of those investigated) approved the preceding month and 2,408 applicants (62.0 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 8.8 percent over the number approved in June and an increase of 9.4 percent over the number approved in July, 1982. The rate of approvals for the AFDC Program increased over the preceding month by 0.5 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 3.7 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during July amounted to $6,784,318.00. This was a decrease of 0.3 percent from the amount of money payments for June, but an increase of 5.7 percent over the money payments for July of the preceding year. Payments were made for 58,131 families with 102,971 children at an average grant of $116.71 per family and $65.89 per child. The average grant increased over June by $0.18 per family and $0.08 per child. In comparison with the same month of last year, the average grant showed an increase of $0.23 per family and an increase of $1.19 per child.

CASES CLOSED

Two thousand four hundred and sixty-one (2,461) AFDC cases were closed during July, the same as the June closures. In comparison with the same month of the preceding year, the closures showed a decrease of 0.6 percent. One hundred and thirty-four (134) (5.4 percent) of the AFDC cases closed during July were closed because of a change in economic circumstances, chiefly increased earnings or support from person outside the home increased, making these cases no longer in need in accordance with the standards of the Department. Two thousand three hundred and twenty-seven (2,327) (94.6 percent of the total number closed) had had no change in economic circumstances, but were closed because their gross income was in excess of 150% of need standard or because of recipient initiative.
